## **YOUR AWARD WINNING LOCAL COMPANY**

The Construction and Engineering Awards have been designed to reward and recognise the hard work undertaken by professionals in the building industry. Minster Conservatories, based in Southwell, are delighted to have been voted Best Conservatories, Windows and Doors Installation Company in Nottinghamshire in the 2016 awards. This prestigious award celebrates the accomplishment of the Southwell based company, led by Jon Fletcher and his team, who have worked very hard over recent months and years to attain this level of excellence.

The award process ensures that winners are truly deserving; a dedicated awards team compiles a file on each nominee once voting is completed; these are then passed on to the judging panel which is comprised of a number of industry experts.

“We were delighted to be nominated for an award at the prestigious 2016 Construction and Engineering Awards and absolutely thrilled to hear that we were named best Conservatories Windows and Doors Company in Nottinghamshire!” exclaims Jon. “I’m very proud of my team who always work so hard to achieve our high standards. Our customers can rest assured that they are using an award-winning company with an incredibly high level of workmanship and attention to detail!”

This trusted, local, family-run company has a wealth of experience and is proud to provide every customer with superior craftsmanship, a free design service, attention to detail and superb customer service. They offer a wide range of designs to suit a variety of budgets and tastes and

promise to beat any genuine like-for-like quote.

Minster Conservatories have a stunning garden room at Reg Taylor’s Garden Centre in Normanton which showcases their beautiful premier collection and enables prospective clients to visualise what an extra room could look like in their home. A full decking or patio service is also available to add the perfect finishing touch to your new conservatory or orangery.

Minster Conservatories also specialise in a full range of replacement windows and composite doors, including their fabulous vertical sliding replacement sash windows. All are manufactured to the highest standards possible, with a full range of PVCu options which reduce noise, improve insulation and add extra security to your home, plus they are virtually maintenance free! In addition, Minster Conservatories can supply and fit individually designed and made to measure porches, manufactured to the highest standards, and also new soffits and fascias; their roof line products are strong, durable, attractive and will protect your home for years.

An excellent local reputation, a long list of satisfied clients, clear communication, honesty, integrity and now a prestigious industry award for being the best in the county! What more could you ask for? Contact Minster Conservatories on 01636 819477 or visit [www.minsterconservatories.com](http://www.minsterconservatories.com) for further information. Or why not pop down to their new orangery showroom at Reg Taylors Garden Centre and see how your home could be transformed!
